

For Safety, Security and Risk Management (SSRM) Students

To support planning and updating personal study plan

Content

- The purpose of these slides is to help you plan both this academic year and your future studies. The slideshow is divided into three sections:
 - Core competence studies,
 - Complementary competence studies and
 - Study paths.
- The slide series highlights changes and recommendations related to study offerings both at Laurea and outside Laurea.
- Changes in the study units will only affect you if you have not yet completed the study unit.

Shortcuts

Explore the curriculum for complementary competence in your own field of study for the next academic year by clicking here.

Explore Laurea MOOC's by clicking here.

In the Study Search choose "self-paced studies (MOOCs)".

General information about the degree in SSRM

- The Degree Programme in SSRM (210 ECTS credits) consists of the following studies:
 - Core competence studies 150 ECTS credits (compulsory studies)
 - Complementary competence studies 60 ECTS credits (elective studies; 45 credits must be related to the field of study)
- The curriculum for complementary competence studies is updated annually and the following year's offering is published on 1st September.
- Changes in the study unit selection and study offering are possible.

Degree structure

210 ECTS

Core competence studies

(150 ECTS, compulsory)

- Business Operations (30 ECTS)
- Basics of Safety, Security and Risk Management (30 ECTS)
- Sustainability and Business Analysis (30 ECTS)
- Expert in a Work Community: Placement 1 and 2 (15+15 ECTS)
- Expert in Development and Workplace Innovation (15 ECTS) + Thesis (15 ECTS)

Complementary competence studies

(60 ECTS, elective)

- Elective Safety, Security and Risk Management studies (minimum 45 ECTS)
- Other studies (maximum 15 ECTS)

Core competence studies

- By default, you proceed with core competency studies according to your group's implementations, and there is no need for changes in core competence studies.
- Below are instructions for any adjustments needed in the personal study plan if you are not progressing at the pace of your group

Instructions on PSP change needs

- **PSP changes are only necessary for students who have not completed their studies in their own group** or at the latest at the pace of the last study unit implementation.
- **An exception to this is the *Research and Development Methods* study unit**, whose study code will change from the autumn semester 2024 as the objectives have been specified slightly. All students who have not yet completed the study unit by the time of the change will complete it with the new code. In the future, we will make mass editing of PSPs. In mass editing, the new study is submitted to the PSP if you have not yet enrolled for the study unit before. If you have earlier enrolment or the study unit is graded as fail, please note the change yourself.

Changes in compulsory studies

Old study unit	New study unit	Last implementation of the old study unit
A9273/R0013 Swedish for Bachelors of Business Administration	HL00BY88 Svenska för tradenomer	R0013 is offered for the last time in the spring semester 2024
R0238 Project Management and Communication	YY00BW73 Project Management and Communication	-
R0239 Research and Development Methods	YY00CA30 Research and Development Methods	Spring 2024
YY00BT40 Research and Development Methods		

Complementary competence studies

- Instructions
- Recommendations

SSRM complementary competence studies

Here you can see all the complementary competence studies regularly offered by the SSRM programme until end of 2024.

Safety, security and risk management complementary competence

Module : Risk Management	Module: Corporate Safety and Security	Module: Preparedness In Society
Risk, Safety and Security Management 10 cr	Information and Cyber Security Management 10 cr	Critical Infrastructure Protection 10 cr
Business Continuity 5 cr	Occupational Health, Safety and Quality 10 cr	International Security 5 cr
Environmental Risk Management 5 cr		Crime Prevention 5 cr

Frequency of study unit implementation

Complementary competence studies (60 credits) are offered at least once a calendar year, but in practice a varying number of additional studies are offered, such as summer studies and MOOCs.

- All complementary studies are either as
 - Blended learning, i.e. some contact days in Laurea Leppävaara campus plus online, or
 - Fully online.

Once you have made your choices, add your studies to your PSP and schedule your studies.

Add individual studies for your PSP with the code shown in the curriculum.

To add an entire module to your PSP search for a study in your PSP with the module name and select a module with the code mentioned in the curriculum. See one example in the picture below. If some of the study units in the module are already in your PSP, those will not be added. Thus, consider whether adding the whole module or just study units is more suitable to keep your PSP in order.

Curriculum (ops.laurea.fi):

Code	Name		Credits (cr)	2024-2025
CCC224SY-1002	LANGUAGE SKILLS, COMMUNICATION AND INTERNATIONALISATION (Choose 60)	Read more	0 - 60	
CCC224SY-1001	ENTREPRENEURSHIP SKILLS (Choose 15)	Read more	0 - 15	
TO00BT38	Entrepreneurship as a Part of Career		5	
TO00BO15	Activating Entrepreneurship Mindset and Understanding the Ecosystem		5	

Study search when adding studies in the PSP in Pakki:

ENTREPRENEURSHIP SKILLS	Add to basket
15 credits Study module CCC222SY-1001	
ENTREPRENEURSHIP SKILLS	Add to basket
15 credits Study module CCC224SY-1001	

Recommended common studies (1/2)

- The common generic studies curricula includes studies related to
 - Entrepreneurial skills
 - language and communication skills
 - International competence
 - Wellbeing, study skills and impacting in student union
 - Other common skills
- [The curriculum can be viewed here.](#)

Recommended common studies (2/2)

Some recommended language studies:

- Roo78 Effective Spoken Communication in English 5 ECTS
- Roo79 Effective Writing in English 5 ECTS
- Ro258 Introduction to Finnish Language and Culture 2
- Ro259 Intermediate Finnish
- V1533 Advanced Finnish 5 ECTS
- Roo89 Language and Culture Tandem 5 ECTS

Recommended studies from other degree programmes

- You can also choose studies from Laurea's other complementary competence curricula, taking into account the prerequisites: [The curricula can be viewed here.](#)
- This means that you can find interesting studies in business management or BIT curriculum, for example.
- You can also choose studies in the core competence of another degree programme, as complementary competence, as long as they develop your competence and there is space in the study unit.

3AMK and CampusOnline study and MOOC recommendations

**Please follow Teams Turva & SSRM Information Channel for news,
including listing of suitable or recommended studies!**

Study paths

The following describes some study paths in the field of education as tips for study choices.

Study paths

In the next few slides, you can see 8 example career paths in SSRM. They include also studies from other programmes and are color coded in the following manner:

**Core competence
study units**
most essential for
path

**Complementary study
units** offered in Laurea
Safety, Security and
Risk Management

**Complementary
study units** offered in
Laurea Hospitality
Management and
Service Design

**Complementary study
units** offered in Laurea
Business Information
Technology

**Complementary study
units** offered in Laurea
Business Management

**Complementary study
units** in International
Exchanges

**Complementary
study units** offered in
other universities and
universities of
applied sciences

All core competence studies must be completed regardless.

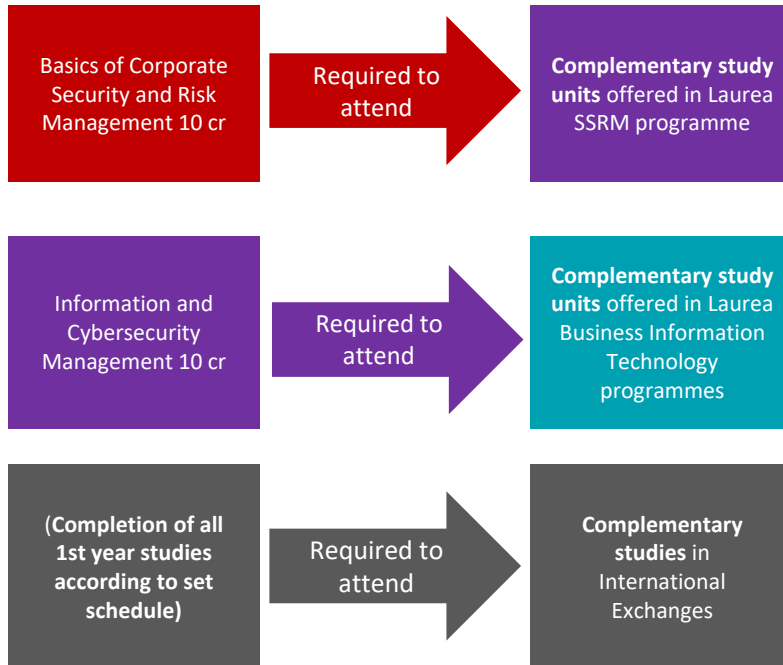

You don't have to select a study path from the following. Feel free to mix or create your own path.

Some of the paths offer more studies that you can take, others leave space for other opportunities.

Discuss your path with your tutor teacher. Don't hesitate to ask or try new ideas.

Never forget business skills, metaskills, language studies etc. that can give you an edge!

Gateways

1. Fire Inspector

Year 1

Basics of Corporate
Safety, Security and
Risk Management
10 cr

Preparedness 5 cr

Placements and thesis

- ✓ Local Rescue Departments
- ✓ National or Local Rescue Associations
- ✓ Fire Safety, Emergency Planning, Self-preparedness consultant companies
- ✓ Safety-critical companies

Year 2

Environmental Risk
Management 5 cr

Critical
Infrastructure
Protection 10 cr

Occupational
Health, Safety and
Quality 10 cr

Business
Continuity 5 cr
